PROFESSIONAL SUMMARY

Java Backend Developer with **2.9** years of experience in building scalable **microservices** and **REST APIs** using **Java** and **Spring Boot**. Experienced in financial data integration, web scraping, and database-driven applications. Proven ability to debug production issues, improve system reliability, and collaborate with cross-functional teams.

EDUCATION

KLE Technological University

Master of Computer Application; **CGPA: 8.96**

Karnataka, India

2021-2022

Karnataka University Dharwad

Bachelor of Computer Applications; **81.37%**

Karnataka, India

2017 - 2020

SKILL SUMMARY

Languages:	Java (Primary), Python(Basic)
Backend:	Spring Boot, Spring MVC, Hibernate, JPA
APIs:	RESTful SERVICES, Microservices Architecture
Database:	MySQL, SQLite
Tools:	Maven, Git, IntelliJ IDEA, Eclipse, VS Code
Testing & Quality:	JUnit, SonarQube
Web:	HTML, CSS, Bootstrap

WORK EXPERIENCE

Cognizant Technology Solutions Pvt. Ltd. — Programmer Analyst | 2.9 Years

May 2023 - Present

Client: Intuit

- Developed and maintained **Java Spring Boot microservices** for financial data integration with Intuit products (Mint, QuickBooks).
 - Built secure **REST APIs** to fetch and process bank account and transaction data from international banks.
 - Improved data accuracy by validating and handling edge cases in scraping scripts.
 - Debugged production issues and reduced failure rate by analysing splunk logs and HAR files.
 - Collaborated with cross-functional teams and international clients for requirement analysis.
-

PROJECTS

SaveMeMoney - Price Comparison Platform [Watch Demo](#)

- Developed RESTful microservices using Spring Boot for aggregating product data.
- Implemented web scraping using Jsoup to collect data from e-commerce platforms.
- Designed MySQL database for efficient storage and querying.
- Integrated Angular frontend with backend services.
- Technologies:** Java, Spring Boot, Jsoup, MySQL, Angular

Global Web Converter [Live demo](#)

- Translate full HTML pages while preserving DOM structure, styles, and attributes; supports 100+ languages with auto-detect and multi-API fallback.
- Drag-and-drop upload, progress UI, instant download of translated files.

JobHunt

- Developed a job listing aggregator using web scraping techniques.
 - Created clean UI and database integration for job search.
 - Technologies Used: Django, MySQL**
-

ACHIEVEMENTS

- Participated in Cognizant hackathon.
 - Participated in National level singing competition.
-

CERTIFICATES

- Bootstrap (Udemy)
- MySQL 5.0 Developer (Udemy)
- Programming in HTML5 with JavaScript and CSS3 (Udemy)
- RDBMS (Udemy)
